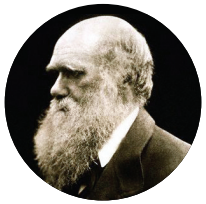
DARWIN SUMMER TALKS



Charles Darwin

Charles Darwin was born on 12 February 1809 in Shrewsbury, Shropshire. Josiah Wedgwood, the china manufacturer, was his maternal grandfather and Erasmus Darwin, the physician and philosopher, his paternal grandfather.

Scientists agree his concept of evolution through natural selection is one of the most important scientific ideas of our time. We are most grateful to our illustrious group of speakers for agreeing to take part in what will undoubtedly be an illuminating series of talks.

How To Book

Tickets are £15 each, which includes admission to the Garden from 12 noon on the day of the lecture. We recommend that you book as soon as possible to avoid disappointment.
